JUNE 3-4 CALGARY, ALBERTA

2019 Oil Sands Innovation Summit Sponsorship Opportunities

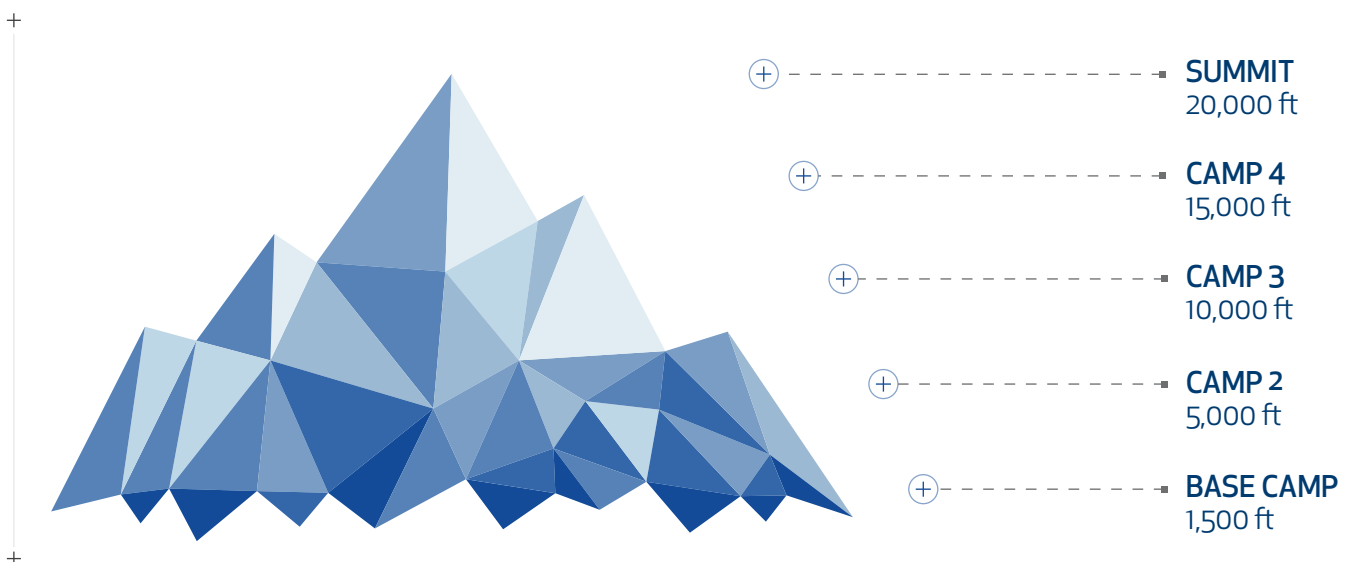

The Oil Sands Innovation Summit has earned a reputation for bringing collaborators together to share, learn and discover the latest in innovations for improving environmental performance. Close to 800 attendees participated in last year's summit. Some of the best minds from industry, academia, engineering and technology providers and government will participate in this year's event, to present their ideas, progress and results in the areas of greenhouse gas reduction, land and water improvements and tailings management.
